Meetings & Events

“To Help achieve your Objective is our Objective”

The Manor Suite

The Manor Suite is ideal for any type of meeting from a conference or boardroom meeting through to a teaching or learning event. With its own dedicated bar and private toilets, it is also popular for those times when important matters are discussed in a less formal setting over dinner or Lunch.

The Manor Suite has good natural light and in good weather there are several outside spaces available to enjoy lunch or to use as break-out spaces, with the possibility depending on availability of using additional internal break-out areas.

Included in the Manor Suite is a projector and flip charts.

The Oak Room

The Oak Room is perfect for that smaller meeting and is especially suited for that all important awayday.

The Oak Room also has good natural light and benefits from by-fold doors opening out onto a private covered decked area. A great space to take a break or have lunch (depending on the weather) and on occasion our guests have been known to use the decking for the majority of the day.

Additionally, the Oak Room can be used in combination with The Library for a break-out space, while an adjoining lounge is an ideal area to relax and chat at breaktimes.

Included in the Oak Room is a projector and flip charts.

The Library

The Library is perfect for an intimate or high level meeting or even a working lunch or dinner.

Once again with natural light the Library has a large central oak table and come with flip charts and a high-definition television for that all important presentation.

There is nearby outdoor space and use of the restaurant or bar when our guests prefer to have a break for lunch away from the meeting itself.

The Marquee

The Marquee is available for larger meetings from March to September.

Light and airy, the Marquee benefits from its own private garden with barbeque and bar for those wanting something different from a buffet or more traditional lunch.

The Marquee and Manor Suite are often used in conjunction to give a more flexible space to suit the requirements of your event.

Included in the Marquee is a projector and flip charts.
